Introducing a new BIO197 course

Anteaters Against Alzheimer's

A training and community outreach initiative of the Institute for Memory Impairments and Neurological Disorders

ANTEATERS AGAINST ALZHEIMER'S

Alzheimer's disease (AD):

- Neurodegenerative disease
- National public health crisis
- Disproportionately affecting minoritized communities
- No treatments approved to slow or stop

What you need:

- A desire to increase public awareness about AD research
- 1 year commitment
  - Winter quarter 2023: Training/Evaluation (7-10 hr/wk)
  - Spring quarter 2023: Community outreach (5-10 hr/wk)
  - Fall quarter 2023: Community outreach (5-10 hr/wk)
- Submit an application

What you will gain:

- Earn course credit
- Learn about AD
- Gain skills in public speaking
- Understand the basics of human research
- Make a positive impact in your community
